BEST PRACTICE GUIDELINES

- An updated outline of the guidelines will be circulated by Clive with names of possible authors of specific sub-sections
- Gil editor only when there will be a complete draft
- The guidelines will have an introductory section targeting a broader audience and more detailed sections for very specific issues.

Climate
Change

DATA RESCUE PROJECTS

- Drew and Pablo to send a short report on progresses
- Yuri will design a GitHub repository for the delivery of the data, on the model of oldweather.github.io/dwr
- There should be a report on the rescued data with feedbacks on tools needed
- Rescued data should have documentation (different from a paper!)
- Data rescue projects could be beta testers for the QC tools

Climate
Change

QC Tools

- Should we design a QC tools that facilitates the submission of flags to Lot 2?
- Does Lot 2 want quality flags?

Climate
Change

Survey 2018

- Survey will be similar to that of last year (additional question on time span of rescued data)
- Involve Lot 2 to reach more potential users
